WORK EXPERIENCE

Freelance Programmer

POAWD Limited, England, United Kingdom

- Design, develop, and maintain responsive WordPress websites and web applications.
- Customize WordPress themes, plugins, and functionality to meet business requirements.
- Integrate APIs, payment gateways, and third-party services.
- Optimize websites for performance, SEO, security, and mobile responsiveness.
- Manage hosting, domains, databases, backups, updates, and migrations.
- Troubleshoot and resolve technical, plugin, theme, and server issues.
- Collaborate with clients and teams to deliver effective web solutions.

08/2022 - Present

Grey InfoTech Limited, Port Harcourt, Nigeria

IT/ICT Servicing, Contractors and Consulting company

Senior Full-Stack Developer & Engineer

- Design, develop, deploy, and maintain scalable and secure full-stack software applications.
- Develop modern web applications using Next.js, React, TypeScript, Node.js, NestJS, Python, Django, FastAPI, PHP, Laravel, PostgreSQL, MongoDB, and Redis.
- Design and implement robust APIs, database architectures, authentication systems, and third-party integrations.
- Lead the full software development lifecycle from requirements analysis and system design to development, testing, deployment, and maintenance.
- Write clean, reusable, maintainable, and well-documented code following industry best practices.
- Conduct code reviews, debugging, testing, performance optimization, and security assessments.
- Manage application deployments, servers, databases, hosting environments, backups, and production systems.
- Develop responsive and user-friendly interfaces optimized for desktop, tablet, and mobile devices.
- Maintain, refactor, upgrade, and troubleshoot existing applications to improve performance, security, and reliability.
- Collaborate with clients, developers, management, and stakeholders to translate business requirements into effective technical solutions.
- Provide technical guidance and mentorship while maintaining development standards and efficient engineering workflows.
- Evaluate and implement modern technologies and tools to improve software quality, productivity, and business operations.
- Support the company's digital transformation by developing systems that automate and streamline business processes.
- Ensure applications remain secure, reliable, up to date, scalable, and aligned with business and technical requirements.

SKILLS

Hard Skills:

- Prioritization
- Segment
- Amplitude
- User documentation
- Back and frontend Testing
- Teamwork
- Debugging
- Programming
- Coding
- Salability
- Software design and development
- Continues integration

Techniques:

- DoubleClick
- live Rail
- Visio
- JavaScript
- CodeIgniter
- Mobile Development
- Version Control
- Web Programming
- System Programming

Programming Languages:

- Ruby
- Python
- Swift
- Java
- C++
- Perl
- JavaScript
- Go
- Kotlin
- CICS
- Angular JS
- Objective C
- MongoDB
- PowerShell
- MATLAB
- SQL
- PHP
- SAS
- C#
- CSS
- HTML
- C
- Dart
- TypeScript
- Rust
- Scala
- Linux
- Apache
- Next
- Visual Basic.NET

Tools and Software:

- Android Studio
- NetBeans
- WebStorm
- Xcode
- Git
- Ansible
- LoadRunner
- HTML5
- Visual Studio
- Junit
- Selenium
- Azure
- Atom
- Jira
- AWS
- Bootstrap
- Docker

Education

Bangalore University

Bachelor of Computer Applications
Bangalore, Karnataka, India
2014 – 2017

Certifications

ALX AFRICA

Software Engineering
2023 – 2024

ORACLE UNIVERSITY

Oracle Cloud Infrastructure
2023
